EXPERIENCE

Omniservice

Nov 2024 - Feb 2025

San Salvador, El Salvador
Electronic security company
Full Stack Developer

Full Stack Developer with React.js, Node.js, and MySQL, responsible for maintaining and improving the company's internal system. Some of the most important improvements I have made include:

- Integration of an automated email notification system, enhancing communication between different teams.
- Customer history / Trash system / UI improvements.
